PRACHURJO BARMON

FULL-STACK DEVELOPER

Sylhet, Bangladesh • **01888002823** • **prachurjobarmon2008@gmail.com**
Portfolio • **GitHub** • **LinkedIn**

PROFESSIONAL SUMMARY

Targeted Junior Full-Stack Developer with hands-on experience in building modern web applications using JavaScript, TypeScript, React, Next.js, Node.js, Express.js, and MongoDB. Passionate about engineering responsive user interfaces, implementing robust RESTful APIs, secure authentication, and database structures. Seeking a Junior Developer or Internship role to contribute technical skills and solve real-world problems.

TECHNICAL SKILLS

Frontend Development: HTML, CSS, JavaScript (ES6+), TypeScript, React, Next.js

Backend & Databases: Node.js, Express.js, MongoDB, REST APIs

Developer Tools: Git, GitHub, Vercel

FEATURED PROJECTS

Prescriptio — Doctor Appointment Booking Platform

Live Demo | GitHub

Technologies: Next.js, React, Node.js, Express.js, MongoDB, JavaScript, CSS

- Engineered a full-stack healthcare platform enabling patients to search for medical specialists, review credentials, and book or cancel appointment slots seamlessly.
- Built a secure admin portal empowering doctors to manage profiles, view scheduled patient appointments, and update availability status.
- Implemented end-to-end REST API workflows for appointment handling, client-side validation, and interactive user management.

Neo-Mart — Second-Hand Marketplace

Live Demo | GitHub

Technologies: Next.js, React, Node.js, MongoDB, JavaScript, Tailwind CSS

- Developed a full-featured C2C marketplace platform for buying and selling pre-owned items with dynamic product filtering and search capabilities.
- Integrated secure authentication, payment processing workflows, and real-time user dashboards for transaction tracking and inventory management.
- Leveraged Next.js server-side features and modern database indexing to optimize platform responsiveness and SEO.

HANDS-ON EXPERIENCE

Full-Stack Development (Personal Projects & Practical Application)

- Architected and deployed production-ready web applications from scratch, taking responsibility for UI design, database architecture, and backend endpoint implementation.
- Utilized modern version control practices (Git/GitHub) for source control and automated deployment pipelines via Vercel.
